CIS Panama City Manufacturing Plant Achieves OSHA SHARP Certification

Chenega Integrated Systems, Panama City, FL manufacturing facility is pleased to announce its certification in OSHA's Safety and Health Achievement Recognition Program (SHARP). The SHARP certification recognizes small employers who operate an exemplary safety and health management system as demonstrated by an OSHA facility inspection. CIS-PC underwent an inspection by an OSHA-SHARP representative who then submitted the facility for certification. As a SHARP recognized facility, CIS-Panama City manufacturing plant will be exempt from OSHA's scheduled yearly inspection and can request to be renewed for another 1-2 years. OSHA certifies approximately 35 businesses per year in Florida with CIS being the only business certified in Bay County. The recently acquired SHARP certification will allow CIS to continue to provide our customers with a best-value manufacturing solution.

About CIS

CIS is an Alaska Native owned Corporation (ANC), a subsidiary of the Chenega Corporation and headquartered in Jacksonville, Florida.
